Job Title: IT Management for Business - Graduate Apprenticeship - 3 posts

Contract: 4 Years

Salary: £19,000 per annum starting salary plus company benefits

Employer:

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. Operating in hundreds of locations across the globe, CGI delivers an end-to-end portfolio of capabilities, from IT and business consulting to systems integration, outsourcing services and intellectual property solutions.

Work Environment:

You might not have heard of us yet but what we do changes your world...in fact everyone's world. The IT services that we deliver to our clients achieve amazing things. From using satnavs to voting on TV programmes and even texting your friends! Imagine being part of a company that can get you involved in these and many other things that make the everyday easier for all.

Our Graduate Apprenticeships are great for school leavers that want to learn whilst earning at the same time. Not only will you enjoy the benefits of a permanent, full-time employment contract, you can look forward to the structured training, hands-on learning and the support and encouragement you need to get your career off to a strong start. You'll be proving yourself from day one – solving problems, taking responsibility, making decisions, working on classified mission-critical projects.

You could be based from our Edinburgh or Scottish Borders office. As CGI is a consultancy, your projects could be based from other locations asides from your base location, and you should therefore be prepared for travel in your role.

What might a day in this job look like?

Due to the nature of our business, you work on 'projects'. This means you have the opportunity to work across a wide range of roles, industries and locations; there is no 'typical day'. You could work in everything from software testing, software engineering and project management to name a few.

The best thing about joining us is that, while you may start in one of these areas, the opportunity to move internally is huge, so you can take control of your career from your first day. Our undergraduates have worked on top-secret national security projects, played their part in securing Europe's major satellites and helped win multi-million pound contracts. It really does vary at CGI and that's the exciting thing - it is up to you to shape and develop your career in the direction you want to go with the support of others.

To support you, you will have designated managers who will look after you on a day-to-day basis and be on hand to support you with your career development and professional conduct at CGI. You will also have a 'Buddy' which is a current or graduated student of a school leaver programme to help you with anything else you may need.

What will I learn?

Join our programme starting in September 2020 and you'll study towards a BSc (Hons) IT Management for Business (ITMB), one day a week at Edinburgh Napier University, whilst spending the other four days a week developing your career on real projects at CGI. You'll also benefit from a competitive starting salary, fully paid tuition fees and all the support you need to succeed. No one day is the same at CGI, meaning you can shape and develop your career throughout the course of the programme then continue with us after graduation.

This course will take four years to complete and, with our sponsorship, you won't have to pay a single penny in tuition fees. We'll even provide the course resources and materials required, so there's no need to worry about textbooks

either. You can also use your laptop you are given when you join CGI to use at university. Individuals who participate in the scheme are able to access the same learning opportunities as those who go down the traditional route of direct entry into college or university.

What Qualifications / Qualities are required?

Right now, we're on the lookout for talent - students and school leavers, people who are passionate about technology and hungry to learn. You'll be proving yourself from day one - solving problems, taking responsibility and making decisions. And with open-ended prospects for advancement, you'll have every opportunity to reach the top.

The preferred requirement is 4 Highers at grade B or above including one in Maths, Physics or Computing (equivalent qualifications are accepted) unless you can show programming/development ability through work experience or extra-curricular activities. Also, at least 7 National 5s at grade A-C including English or Maths (equivalent qualifications are accepted).

Closing Date:

Monday 20 January.

The Edinburgh Guarantee exists to make sure that every school leaver in Edinburgh will leave school with the choice of a job, Further Education or training opportunity.

Job Title: Software Engineering - Graduate Apprenticeship – 3 posts

Contract: Four years, starting in autumn 2020

Salary: Competitive starting salary

Employer:

Leonardo is an international leader in electronic and information technologies for defence systems, aerospace, data, infrastructures, land security and protection and sustainable 'smart' solutions. We are globally renowned and are continually expanding, offering exciting opportunities to talented people who want to work at the forefront of our technology. Across our technical, engineering and business functions you can look forward to working with highly skilled professionals that are passionate about their work.

Work Environment:

Leonardo's four year Software Engineering Apprenticeship scheme in Edinburgh is looking for people who understand the importance of communication, who are able to work well as part of a team and also on their own initiative. You will have the drive and commitment to work through difficult problems to find the right engineering solutions.

Leonardo values their people and we reward commitment with a competitive remuneration and flexible benefits package including:

- Competitive starting salary
- Annual incremental pay increases
- 33 days' holiday and flexible working arrangements
- Pension scheme (Contributory).

A career in the defence industry rewards over 162,000 people and generates a £22billion turnover. This opportunity affords you the chance to be part of a community, working with some of the most talented engineers in the UK on some of the most exciting projects around.

What might a day in this job look like?

Study will include standard classroom sessions, computer lab sessions, online blended learning modules, and work-contextualized industrial projects. You will:

- Learn to design high integrity software
- Practice the full software lifecycle
- Attain a BSc (Hons) Software Development for Business degree.

What will I learn?

You will study for completion of a BSc (Hons) in Software Engineering on a day release basis whilst working. You should gain the academic requirements for Incorporated Engineer as part of the way to gaining Chartered Engineer status.

You will learn to programme and how to design, integrate and test high-integrity software through a combination of University teaching and work-based learning. You will be given experience of all stages of the software development lifecycle and an awareness of other engineering departments who support the software engineers.

You must be interested in software and have a technical aptitude in software development, maybe gained through a hobby or designing an App/website. At the end of the programme, you will work as a highly qualified member of our

Software community developing software for technically advanced avionics systems such as the radar for the Typhoon jet.

Note: This Apprenticeship assumes the candidate has very little software knowledge and is not suitable for candidates who already have a computing or software degree.

What Qualifications / Qualities are required?

You must have (as a minimum) the following qualifications:

5 Higher Grades (or equivalent): BBBBC

- Mandatory: Mathematics
- Preferably including Physics and Computing

AND

Standard Grades (1-3) / National 5: (A-C) in English
(or equivalent qualifications to Highers / Standard Grades).

Other needs:

- Have a minimum of 5 years, permanent residency in the UK
- Successfully complete SC security clearance.

Leonardo's four year Manufacturing Technical Apprenticeship provides a wealth of learning and development opportunities including an HNC in Engineering systems, SVQ Level 2 (PEO) and SVQ Level 3 (Engineering technical support). Working with world-leading specialists, you will increase your technical skills and capability, and develop your academic and practical understanding of the engineering lifecycle.

Leonardo values its people and we reward commitment with a competitive remuneration and flexible benefits package including:

- Competitive starting salary
- Annual incremental pay increases
- 3 performance related pay reviews in the two years following your apprenticeship
- 33 days' holiday and flexible working arrangements
- Pension scheme (Contributory)
- Cycle to Work initiative
- Free gym membership.

A career in the defence industry rewards over 162,000 people and generates a £22billion turnover. Come and be a part of a community and work with some of the most talented engineers in the UK on some of the most exciting projects around.

What might a day in this job look like?

You will undertake a series of three-month rotational placements in the methods of testing industry leading radar and laser systems – covering Electronic Testing; Laser Testing; Radar Testing; Industrial Engineering; Test Solutions.

During the rotational placements you will learn how to test complex electrical and mechanical systems to ensure they are safe and reliable. An example of this is when you undertake a placement in our state-of-the-art environmental test facility where you will be testing systems under various environmental conditions including altitude, temperature, humidity and vibration. In other departments you will be office based, looking at our manufacturing processes and how they can be refined to reduce cost, or improve build quality. The rotational placement plan will truly give you a flavour of all aspects of engineering verification and test.

You will be working within cutting-edge facilities and there may also be opportunities for travel between the company's UK sites and to meet with colleagues, customers and suppliers.

What will I learn?

Years 1 and 2:

During your first five months you will be attending college full-time to complete an SVQ Level 2. Once back on-site, you will conduct rotational placements where you will gather real work evidence such as written logs describing day-to-day tasks completed and highlighting the key engineering competencies you have demonstrated. The SVQ Level 3 will require you to complete a folder of this evidence, demonstrating your development into a well-rounded technician/engineer through on-the-job training and are gaining the essential practical skills to succeed. During this time, you will also be attending college on day release to gain the academic qualifications required by the Apprenticeship framework.

Years 3 and 4:

Having gained broad experience across Leonardo, you will undertake a final placement and further your academic study to HNC level. These activities will be focused on your area of specialism and the on-the-job training will enable you to gather the final evidence required for the SVQ. Beyond the programme there may be the opportunity for you to further your academic achievements based on your talents and capability and needs of the business.

What Qualifications / Qualities are required?

You must have (as a minimum) the following academic qualifications:

- 3 x Higher Grades (or equivalent):
- Mandatory: Mathematics (A-C) and Physics (A-C) or Engineering Science (A-C)
- Plus another Higher subject, preferably a technological subject e.g. Graphic Communication, Product Design, Craft & Design, Tech Studies, Computing etc. (A-C)
- Standard Grades (1-3) / National 5: (A-C) English.

Other needs:

- A minimum of 5 years' permanent residency in the UK
- Successfully complete SC security clearance.

We value:

- Ability to achieve high performance
- Want continuous improvement
- Develop customer focus
- Able to work together
- Demonstrate self-awareness and confidence
- A passion for technical analysis, judgement and problem-solving.

Closing Date:

Friday 13 March.

The Edinburgh Guarantee exists to make sure that every school leaver in Edinburgh will leave school with the choice of a job, Further Education or training opportunity.

Job Title: EY Transactions Business Apprenticeship Programme

Contract: Permanent

Salary: Up to £22,000 per annum starting salary

Employer:

At EY, we help all sorts of organisations make better decisions about business, finance and technology. In a fast-changing world, it's an exciting place to be.

You don't need a degree to start a successful career in business. If you've finished school and want to jump straight in, you can with our apprenticeship programmes. Earn a salary from your very first day. Learn from inspirational colleagues on client projects. Do what you're good at. Learn new skills. Get your professional qualifications before your uni-graduating peers – and go just as far.

Work Environment:

To stay competitive, companies often need to buy, sell, merge or restructure parts of their business. Join the EY Transaction Business Apprenticeship Programme and you'll help organisations stay ahead of the competition while earning a great salary, gaining invaluable work experience and studying for a professional qualification.

Economies are fuelled by competitive organisations who buy, sell, merge or restructure parts of their business with others. Transactions help organisations do all that while making more informed decisions and building better strategies. In Restructuring, we advise organisations – and other affected parties – when they are underperforming or in distress, on the best course of action. Through independent analysis, we help them either get back on track or go through insolvency procedures like administration or receivership.

“Each client you work with is different and unique and therefore you need to be able to problem solve and think outside of the box to come up with the right solution for the client.” Rozalie, Transactions Restructuring Business Apprenticeship.

What might a day in this job look like?

As part of our team, you'll get straight to work on real client projects. Over the course of the programme you can expect to contribute to challenging assignments, learn how to make quick, practical decisions and work through problems with conviction in your process. You'll also be:

- solving urgent and important business problems by analysing data and proposing solutions for underperforming businesses
- undertaking an arrange of tasks required to manage a company that is going through an insolvency process
- assisting with solvent and insolvent liquidation processes.

What will I learn?

You'll study to become a qualified chartered accountant through ICAS, and you'll have support from your team, too. At the end of the programme, you'll have gained professional qualifications, lots of practical experience and built a strong network of mentors and peers to help you keep developing.

What Qualifications / Qualities are required?

You'll need a minimum of five Scottish Highers or equivalent by the time the programme starts in September 2020.

Closing Date: Rolling recruitment throughout the year.

Work Environment:

Gain real work experience in the business world, take advantage of new tech and build the skills you need to propel your career. You'll create real change by helping businesses publish reliable financial accounts, all while you study for a professional qualification and progress towards becoming a chartered accountant.

Our Assurance teams analyse the data behind our clients' businesses. As external auditors, they help companies and governments publish accurate financial accounts that their clients and industry regulators can rely on.

"The best thing about the role is the variety and that I am not doing the same tasks on a daily basis. It has provided me with the opportunity to take a look at the running behind some of the largest insurance businesses, both in the UK and internationally, and has also involved quite a bit of travel." Jade, Assurance Business Apprenticeship.

What might a day in this job look like?

You'll be working closely with your team auditing a variety of clients across different sectors. The role will include:

- getting to know our clients, their businesses and how they work
- testing checks and balances to ensure they work how they're supposed to
- analysing the data that goes into a financial statement to make sure it's true and fair.

You may also be required to take on more work, and you should be amenable to longer hours and spending a greater amount of time working away from home, particularly during busy season. You can expect to spend a high proportion of your time on client site too.

What will I learn?

You'll study and undertake exams along the way so you'll progress even faster professionally than your university-going friends. At the end of the programme, you'll have gained professional qualifications, a host of transferable skills, lots of practical experience and a network of mentors to help you keep developing. An apprenticeship in assurance gives you a solid grounding, and sets you up, for a career in finance.

What Qualifications / Qualities are required?

You'll need a minimum of five Scottish Highers or equivalent by the time the programme starts in September 2020.

Closing Date: Rolling recruitment throughout the year.

The Edinburgh Guarantee exists to make sure that every school leaver in Edinburgh will leave school with the choice of a job, Further Education or training opportunity.

Job Title: Hairdresser – Modern Apprenticeship

Job Title: Artisan Baker - Modern Apprenticeship

Contract: Permanent after trial

Salary: Modern Apprenticeship National Minimum Wage for the first year

Employer:

At the Breadwinner we're passionate about baking. Since 1973 our master craftsmen bakers have been baking in Edinburgh - kneading and shaping dough by hand. We prefer to use traditional, simple methods and allow time to naturally enhance our products, rather than adding anything that would change the quality or flavour of our breads. We're proud of our heritage - and work hard to supply breads, cakes and pastries that are locally made, freshly baked and full of flavour.

Work Environment:

You will be working in a small team within a busy wholesale artisan bakery at South Gyle.

What might a day in this job look like?

- Learn and apply food hygiene and safety practices, personal hygiene, equipment and work place cleaning, stock rotation systems, and the systematic and preventative approach of Hazard Analysis and Critical Control Point (HACCP) in food production process.
- Learn about the main ingredients used in baking and how to use and store them.
- Weigh ingredients according to recipes and calculate the amounts needed for a given yield (output).
- Follow recipes and processes for making baked goods.
- Use and clean specialised machinery (mixers, dough breaker, oven etc) after each use as required.
- Use specialist tools (rolling pin, piping bags etc) for producing products.
- Understand and conduct proper fermentation for yeasted products.
- Hand divide, shape breads and buns and baking goods.
- General cleaning of equipment and work place area as required.
- Reflective practice on all aspects of the job, while constantly striving to achieve high quality and regularity of products.

What will I learn?

You will complete a 3-4 year apprenticeship which will include practical on the job training working closely with some of the best bakers in Scotland. This training will be supplemented by SQA accredited SVQs.

What Qualifications / Qualities are required?

- Qualifications aren't important – we are looking for someone who will be dedicated to learning the skills required to become a fully qualified baker.
- We are looking for a motivated young person with a passion for bread and baking who strives to achieve high standards and pays attention to detail.
- You should have good communication and problem-solving skills, be numerate, hardworking, organised and enjoy working in a team.

If you are successful in the first round of interviews, you may be invited along to spend some time in the bakery to see what working there would really be like.

Closing Date: This position will close when a suitable candidate has been found.

Job Title: Support Worker

Contract: Permanent / Relief

Salary: £8.75 per hour

Employer:

Blackwood Homes and Care was founded in 1972 by Dr Margaret Blackwood MBE, a campaigner for the rights and independence of disabled people. Dr Blackwood was awarded her MBE for her dedication to improving the lives of disabled people and bringing awareness to a lack of adapted homes. She was deeply committed to people being able to live independent lives and, following her work to improve their financial situation, set her sights on providing housing that was suitably designed for disabled people. We deliver our vision of helping people live their life to the full in the pioneering spirit of Dr Blackwood by providing high quality housing, care and support for disabled people of all ages, with over 1500 homes across all 29 mainland local authorities in Scotland. Blackwood currently have four care homes across the country and also provide care to people who live in their own homes.

Work Environment:

Blackwood provides high-quality, innovative care for the elderly and people living with physical disabilities and long-term conditions such as dementia and multiple sclerosis. Our Edinburgh Care at Home service operates across the city including Abbeyhill and Leith, Drumbrae, Clermiston and Corstorphine and Edinburgh South. Edinburgh Care Services consists of three teams with each team having a dedicated Team Leader.

What might a day in this job look like?

Our personalised care and support packages enable our customers to live independently and range from a few hours a week to several daily visits. Our Support Workers provide a wide variety of personal care tasks for our customers such as personal hygiene, dressing, medication prompts as well as light household chores. This role involves going out into the community and working individually or alongside another Support Worker (depending on the care visit) where you will visit our customers in their homes.

What will I learn?

- Funding available for SVQ Level 2 training after completion of probationary period
- Fully paid induction and training including moving and handling training and shadowing opportunities with our more experienced carers
- Communication, teamwork and the opportunity to gain a professional qualification within the Social Care sector.

What Qualifications / Qualities are required?

We are looking for someone who is open and honest, takes responsibility, can keep promises, has respect and understanding and can build trusting relationships.

Closing Date:

Ongoing recruitment.

The Edinburgh Guarantee exists to make sure that every school leaver in Edinburgh will leave school with the choice of a job, Further Education or training opportunity.

Job Title: Personal Assistant

Contract: Full and part time opportunities available

Salary: £8.45 per hour

Employer:

ENABLE Scotland is a dynamic and vibrant organisation dedicated to improving the lives of people with learning disabilities and we have full and part time opportunities for you to support people in Scotland to make the most of their lives.

Work Environment:

We have various opportunities in Edinburgh, East Lothian and Midlothian to support people who have learning disabilities to live independently in their own homes or take part in activities we take for granted. And, who knows, it could make a difference to your life as well.

What might a day in this job look like?

Every day is different at ENABLE Scotland and your working day will depend entirely on the person you are supporting and no matter what you do, it will always be supporting that person to achieve their personal goals. So, one day you could be supporting someone to go swimming at the local leisure centre and the next you could be supporting them to achieve their goal of using public transport on their own. Some of our PAs even support people when they go on holiday which could be to the Isle of Arran or Lanzarote!

What will I learn?

What's also great about ENABLE Scotland is that we believe in developing all our staff and provide an extensive training programme, combined with a commitment to create career development opportunities including SVQ Level 2

What Qualifications / Qualities are required?

You don't need experience in care to start your career with ENABLE Scotland. We recruit people based on their values and transferrable skills. No matter where you have worked before; be it retail, admin, warehousing or wherever, we want to hear from you! Sound good so far?

Successful applicants will be able to demonstrate the following:

- The ability to adapt your communication style in order to develop successful and enjoyable relationships with the people we support.
- The commitment to work with individuals through their personal support plans to ensure people achieve their goals and outcomes and celebrate their successes.
- A positive and flexible outlook to your work, and be able to work on your own and as part of a team.
