Dear Parent or Guardian,

### **Extension to Boroughmuir High School**

Further to previous newsletters on the extension to Boroughmuir High School, I write to advise that Grahams will start on site on 12 April 2021. When pupils return from the Easter Break, they will find changes to the school grounds to facilitate the building works which will also affect pupil access to, and movement around, the school grounds.

During the construction period there will be no pupil access from the bottom of Bainfield Place. Pupil access to the school grounds will be available from Viewforth and from the pedestrian entrance at the top of Bainfield Place, next to the canal towpath.

As a building project a degree of disruption is unavoidable. However, the Council, the school and contractor are working together to minimise this, and we'd be grateful for your patience and cooperation during this period.

A copy of the Site Logistics Plan showing the school grounds during the construction period is attached for your information.

If you have any questions, please contact the school office in the first instance.

Yours sincerely,

Crawford McGhie  
Senior Manager
