

## Rationale

Professional Learning and Development is at the core of what we do as teachers in Boroughmuir on a daily basis and has lasting impact on our pupils and staff.

It is collaborative; we learn from each other, we learn what works best ('bright spots') and investigate the literature for evidence based best practice. We view professional learning as having most value for us in Boroughmuir when it is built on our felt needs, and serves our individual goals and shared vision. Collegiate by nature it is meaningful, relevant, integrated and sustained.

Boroughmuir High School
