

# MUSIC WEBSITES and APPS for FUN

## Something Active to Do!

All pupils can access the sites identified below - and more. The list is far from exhaustive and is intended as a starting point.

s1 and s2 have a knowledge of how to teach themselves instruments and have covered keyboard, glockenspiel, xylophone, ukulele, bass guitar riffs and drums in class. They have been taught how to decipher music and therefore can work out music they read. They can also access writing and creating music in the Garageband app which will support them in understanding written music and provide them with virtual instruments.

Just make sure there's a set of headphones handy!

- **AMOSDOLL MUSIC** Tutorial Youtube which teaches musicians how to play any song by ear.
- **UKULALIENS** Great site for play and sing along songs for ukulele. Find on Youtube.
- **MYCHORDBOOK.COM** Interactive chords and lyrics for guitar, piano and ukulele.
- **GUITAR HERO** For Wii only.
- **YOU CANSING** Information on the world of singing.
- **YOUTUBE** Search 'singalong', 'karaoke' or 'playalong'. You can put in the name of a particular song and instrument you'd like to play.

**Are you already playing an instrument? Want new music or just something different to play?** Simply search up the song you want to play with the words 'sheet music' and the name of instrument.

- **YOUSICIAN** A fun way to learn guitar, piano, bass, ukulele or singing.
- **SIMPLYPIANO** A fast and easy way to learn piano online.
- **GUITARTUNA** For all string instruments including guitars, ukulele and the violin family. Supports tuning your instrument, shows how to play and gives ideas of what to play.
- **SMULE** Social singing app.
- **GARAGEBAND** Great all round site to write and create your own music. Play virtual instruments. Make and design songs and music.
