

First time I have been involved in these sessions and I found the content extremely helpful

Autism in the High-School Years Parent Information Sessions

Did you miss these sessions?

Why not watch the pre-recorded versions.

*subtitles/transcripts in most languages/ playback at varying speeds (Some videos may only be available until Feb 2024) Thank you so much for these sessions- they have been invaluable and I wish there were more than 6

The presenters were knowledgeable and supportive and had extensive experience of working with neuro divergent young people and their parents and carers

All the information given was useful. Even ideas which have been heard before I am now able to consider in relation to where we are now

Lots of practical tips and signposting were so helpful
